## Objective

I'm a very self driven individual that loves to learn. I have a proven track record in Web Development, Community Management, and UX Testing. I'm seeking a Front-End Web Developer role to leverage my technical expertise to deliver impactful websites that reach and engage target audiences.

## Skills

- Proficient in Javascript, Next.js, React.js, Tailwindcss, Sanity.io, Git, and Discord.js.
- Experienced in UX testing, course management, and social media management.
- Excellent problem-solving skills with keen attention to detail.

## Personal Projects

- Built <https://www.imsoloh.com/> using Next.js, Tailwindcss, Framer Motion, deployed on Vercel
  - Used Framer Motion to enhance components
  - Single Page Application to promote socials for a content creator
- Building [dmttoolbox.app](#) utilizing technologies like the chatGPT API, Stripe, and Supabase.
  - Used Javascript manipulate data from an API to display in Next.js
  - Implemented Stripe for user payments and linked that to Supabase to keep a record of customers
  - Created login profiles and stored user data in a database using Supabase
  - Used the chatGPT API to generate characters name, description, and background using AI
- Managed and maintained a personal website built on Next.js, Tailwindcss, and Sanity.io, deployed on Vercel.
  - Sanity.io for a content management system.
- Created a course on egghead.io, "[Build a Book Club Bot with Discord.js](#)" showcasing expertise in the subject matter.

## Experience

Egghead.io - Full Time Production Engineer - 2019 - 2022 (3 years)

At egghead, I was a Production Engineer but took on many different tasks throughout the years such as Web Development, QA, and Social Media Management.

- Designed and built landing pages for various frameworks and libraries on egghead.io, specializing in Next.js, Tailwindcss, and Sanity.io such as the [next.js page](#).
- Built components and web pages based on Figma mockups.
- Contributed to the management of the Learner Advocate program, which mentored and guided new developers in their pursuit of a career in tech
- Coordinated and managed launch events, produced social media posts, writing SEO titles based on course content.
- Conducted extensive research on technology and wrote informative emails to a subscriber base of over 100k subscribers, contributing to high customer engagement
- Interviewed and advised developers of varying experience levels on learning paths and [egghead.io](#) resources, demonstrating strong communication and interpersonal skills.
- Managed comments on [egghead.io](#), helping developers troubleshoot their issues and promoting customer satisfaction.
- Managed social media accounts on various platforms, including Twitter, Discord, LinkedIn, Instagram, and TikTok.
- Reviewed and identified quality issues in edited lessons for products like epicreact.dev and testingaccessibility.com.

Egghead.io - Part Time Content Management - 2017 - 2019 (2 years)

- Managed content that was produced on egghead to ensure there were no breaking changes

Columbia Veterinary Center - Veterinary Assistant - 2014 - 2015, 2016-2017 (2 years)

- Prepped animals for surgery and carried out treatment designed by the Doctor as well as managed the Kennel assistants.

North Creek Pet Hospital - Veterinary Assistant - 2015 - 2016 (1 year)

- Prepped animals for surgery and carried out treatment designed by the Doctor.

Antech Diagnostics - Vet Lab Data Entry - 2013 - 2014 (1 year)

- Data Entry for lab samples all over the North West and Ran test for Heartworm, FIV and FELV, UA.

## Education

- Graduated High School with a Diploma and currently enrolled at Clark College for a Web Development Certificate.
